

(The M.A.I.S. Bulletin, June 1985)

QUARTERLY EXPLORER TAPE

Explorer Excerpts

Enclosed with this bulletin is a new facet to MIAS membership. Periodic bulletins will still be issued as needed. But instead of a quarterly newsletter, members are now receiving quarterly taped excerpts from Explorer sessions in the MIAS laboratory. The information brought back by our new generation of Explorer volunteers is often startling and always thought-provoking.

On this quarter's tape, our non-physical friend, *Friend*, indicates how important one's thought forms can be.
